

Yuko Anti-Frizz

STEP BY STEP TECHNICAL GUIDE

STEP 1 - CONSULTATION

Check the hair conditions including hair type and level of damage comprehensively.

STEP 2 - PRE-SHAMPOO

Shampoo using Yuko Shampoo Frizz Care

Yuko Anti-Frizz Shampoo/Treatment

Maintain frizz-free moisturized hair all the way through the ends.

STEP 3 - PRE-TREATMENT

Spray G Hair Water all over the hair

G Hair Water

Keep hair enriched and moisturized through maintaining water balance.

STEP 4 - SOLUTION 1

Mix Yuko Bond Softener G56 and Yuko Anti-Frizz Cream 1 with a ratio of 1:10.

Leave hair for 15 minutes covered with a plastic wrap.

Solution Amount (same for Solution 2)

Short Hair	80g to 100g
Semi-Long Hair	100g to 120g
Long Hair	120g to 150g

**Bond Softener
G56**

**Anti-Frizz
Cream 1**

STEP 5 - INTERMEDIATE RINSE

Rinse hair thoroughly from the nape down.

STEP 6 - DRYING AND IRONING

Spray a generous amount of G Hair Water and then G Heat Guard. Use a hair iron after drying the hair.

G Hair Water

Keep hair enriched and moisturized through maintaining water balance.

G Heat Guard

Protect the hair from heat of hair iron and dryer.

STEP 7 - SOLUTION 2

Apply solution 2 and leave in for 10 minutes.

Anti-Frizz Cream 2B

STEP 8 - SECOND RINSE

Rinse out the solution 2 thoroughly and apply Yuko Treatment Frizz Care.

Yuko Treatment Frizz Care

Maintain frizz-free hair all the way through to the hair ends, while replenishing moisture from within

STEP 9 - DRYING

Spray G Hair Water followed by G Heat Guard all over the hair then dry with a dryer.

G Hair Water

Keep hair enriched and moisturized through maintaining water balance.

G Heat Guard

Protect the hair from heat of hair iron and dryer.

STEP 10 - FINISH
